PARLIAMENT BUILDINGS,

TORONTO, DEC. 4TH, 1918.

To His Honour SIR JOHN STRATHEARN HENDRIE, C.V.O., a Lieutenant-Colonel in the Militia of Canada, etc., etc., Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I beg to submit herewith the Forty-ninth Annual Report upon the Hospitals and Charitable Institutions of Ontario, being for the official year ending September 30th, 1918.

I have the honour to be,

Your Honour's obedient servant,

W. D. MCPHERSON,

Provincial Secretary.

Office of the

Inspector of Prisons and Public Charities, Ontario.

Parliament Buildings, Toronto, Nov. 14th, 1918.

Sir,—I have the honour to transmit herewith, to be presented to His Honour the Lieutenant-Governor, the Forty-ninth Annual Report upon the Hospitals and Charitable Institutions, etc., for the official year ending September 30th, 1918.

I have the honour to be, Sir,

Your obedient servant,

W. W. Dunlop,

Inspector.

The Honourable W. D. McPherson, K.C., M.P.P.,

Secretary of the Province of Ontario,

Toronto.

Hospitals and Charitable Institutions

In presenting the forty-ninth annual report on the Hospitals and Charitable Institutions for the year ending September 30th, 1918, I beg to state that there are at present in Ontario:—

98 Public Hospitals, including 11 Sanatoria for Consumptives.
68 Private Hospitals.
39 Refuges.
31 Orphanages.
2 Convalescent Homes.
31 County Houses of Refuge.

These have, as far as possible, received official visits of inspection during the year, and those entitled to Government aid in accordance with the Statute have shared in the grants voted by the Legislature for Hospitals and Charities.

The Hospitals.

The record of the year indicates the continued success and progress of the Hospitals of Ontario:

Number of patients in the hospitals, October 1st, 1917	5,732
Number of patients admitted during the year	98,339
Number of births in the hospitals during the year	8,360
Total number under treatment during year	112,431

The above figures do not include those who received medicine and treatment as outdoor patients.

Number of deaths during the year	5,669
Percentage of deaths to number under treatment	5.04
Total number of days' stay in the hospitals	2,209,781
Provincial grant to hospitals for the past year	$384,652 93
Amount received from all sources during the year	4,556,601 31
Subscriptions, donations, etc., during the year	712,219 83
Total expenditure for hospitals (including capital account, $857,692.58) during the year	5,763,924 36
Average cost for each patient per day	2.27
Percentage of Provincial grant to total maintenance expenditure	7.8

Provincial Aid to Hospitals.

1. A Provincial grant is made for all patients in a hospital during the first ten years of its existence at the rate of thirty cents per day, irrespective of what sum is contributed by the patients themselves.

2. After a hospital has been in existence for ten years the grant is paid only for patients for whose maintenance $8.75 per week or less is contributed.

3. In all cases the limit is 120 days, and if the patients remain in the hospital longer than that period the refuge rate of seven cents per day is allowed.

4. Children over one year and under twelve years are allowed for at the rate of seven cents per day.

5. No allowance is made for infants under one year of age.

Aid to Sanatoria for Consumptives.

1. A grant of $4,000 on the erection and satisfactory equipment of the necessary buildings.

2. A grant of three dollars and fifty cents per week for the maintenance of each indigent patient.

These grants to be in consideration of proper accommodation being provided, and only to assist in the maintenance of indigent patients coming from the Province of Ontario. There were 2,915 patients cared for in the eleven different Sanatoria for Consumptives during the past year.

THE YEAR'S WORK IN THE HOSPITALS.

The number of patients cared for in the Public Hospitals of Ontario during the past year was 112,431.

The total expenditure for maintenance and equipment during the year was $4,906,231.78.

INSPECTIONS.

The usual inspection of each Hospital has been made and a report of the same transmitted to the Honourable the Provincial Secretary, and a copy of the report sent to each institution visited. Where criticism has been found necessary or where suggestions have been called for, they have in nearly every instance been received in a kindly spirit indicative of a desire to improve upon conditions mentioned.

With eighty-seven public hospitals located in different parts of the Province, it is now well recognized that a well established and conducted hospital confers an incalculable benefit on the community in which it exists. The remarkable progress that has been made in Ontario during recent years in establishing hospitals has developed an appreciation of the material advantage that such an institution is to the town or city in which it is located. It is only a very few years since, to secure proper hospital treatment, a long railway journey was necessary. Soon every county of Ontario will have its own hospital properly equipped for the care and treatment of medical and surgical cases, and thus every part of the Province will be afforded advantages which not long ago it was necessary to seek in the larger centres. To-day the medical and surgical equipment of many of our town hospitals is equal if not superior to that found in some of the older established institutions in the larger cities. The effect in every town where a public hospital has been established is seen not only in affording proper care

for the sick, but also fostering and developing an appreciation of scientific advantages to the medical profession that ultimately are of the greatest benefit to the whole community. From the standpoint of value to the country, hospitals undoubtedly rank first in the philanthropies of the age in which we live.

Plainly spoken criticism has to be expressed in report of inspection of some hospitals where, on account of the lack of proper accommodation, there has been found a disposition to crowd poor patients, admitted on municipal orders, into poorly ventilated wards and to reserve nearly all the best parts of the building for private and semi-private patients. The original idea—the care of the sick-poor—for which hospitals were established must not be lost sight of. The institution that fails to provide proper accommodation in suitable buildings for its patients should not be considered worthy to share either Government or Municipal grants. City hospitals should be compelled to afford as comfortable wards for their patients as are found at similar institutions in the towns of the Province.

The rate of maintenance at Ontario Hospitals is equal to if not less than at similar institutions in other portions of America, and criticism is seldom called for in regard to lack of economy in management. The expenditures under the different headings indicate such prudence and caution that enquiry often comes from other countries asking for information in respect to the methods employed to secure such results. Owing to the high cost of living the average daily cost per patient in our hospitals has arisen from $1.13 in 1905 to $2.27 in 1918, but when this rate is compared with the maintenance rates in hospitals in the United States there is certainly reason to feel satisfied with the comparison.

IMPROVEMENTS IN HOSPITALS.

Brockville St. Vincent de Paul Hospital.

The system of heating has been modernized and is controlled by a 75 h.p. steam boiler, thus effecting economy and more uniform heating. The interior and exterior of the building has been painted and general repairs have been attended to.

Brantford General Hospital.

A new wing has been added to the Nurses' Residence, affording accommodation for 27 nurses. A third engine room has been installed. The erection of an Isolation Hospital on the grounds is under consideration.

Belleville General Hospital.

A Terrazo floor has been laid in operating room No. 2. An electric motor has been put in for operating the elevator. The second floor of nurses' quarters has been refurnished and redecorated. The roadway in the hospital grounds has been repaired under the supervision of the City Engineer, at a considerable outlay.

Chatham Public General Hospital.

A new incinerator has been installed. The cottage for the help has been enlarged and remodelled. It is proposed to erect a new hospital to be known as the Soldier's Memorial Hospital, at an estimated cost of $150,000.

Chatham St. Joseph's Hospital.

A new entrance porch costing about $2,000 has been erected.

Cobourg General Hospital.

The following improvements have been made: A complete X-ray equipment costing over $4,000 has been installed. Surgical waggon fully equipped. Nurses' chart tables. "Toronto General" operating table. The hospital was also presented with a first class victrola.

Cornwall General Hospital.

Two of the heating furnaces have been replaced; also the cylinder of the elevator has been renewed.

Cornwall Hotel Dieu Hospital.

The central heating plant has been completed during the past year, adding greatly to the comfort and cleanliness of the institution. An upright boiler has been put in for running the steam laundry. A new hardwood floor has been laid in the hospital kitchen, and the walls and ceiling have been painted white (vitralite). A concrete floor has been laid in the storeroom, also a new floor in sterilizing and anesthetic rooms.

Essex County Sanatorium.

Plans have been prepared and work is to commence at once on a separate residence for the physician-in-charge.

Galt General Hospital.

A $25,000 nurses' home has been donated and the present nurses' home is being converted into a maternity hospital at a cost of $15,000.

Guelph St. Joseph's Hospital.

The building has been wired throughout and a new electric elevator installed. There are other minor improvements.

Hamilton City Hospital.

An addition has been made to the maternity building at a cost of $25,000. A new admitting department has been provided. An enlarged dining-room for nurses and new sun-rooms. The ground floor in the new Alexandra wing has been fireproofed. Alterations are now being made in the Administration Building, which will provide new offices and rotunda. A nurses' home at Mount Hamilton Hospital has been completed, costing $78,000.

Hamilton St. Joseph's Hospital.

The list of improvements is as follows: New refrigerating plant, costing $2,800; a meat and bread slicer, $175.00; a Hawleys' operating table; painting and decorating building including the operating and anesthetic room which has been done in enamel; new instruments, etc.

Haileybury Providence Hospital.

The prevalence of influenza epidemic called for greater accommodation and the Sisters gave up their own sleeping apartments and took up quarters in the unfinished part of the building. However, they have succeeded in finishing one wing of the fifth story and the staff will occupy the apartments there, thus providing more space for patients.

Hamilton—the Mountain Sanatorium.

At the Grafton Infirmary two isolation wards have been provided and the bath and serving rooms have been entirely reconstructed. At the staff house a small refrigerator has been replaced by a large service room and a large built-in refrigerator. The shack for women has been enlarged to admit eight more beds, and the dressing-room greatly enlarged to enable patients to dress without crowding or confusion. A serving-room has been added in rear of this building so that trays can be taken directly to the patients without so much loss of heat as heretofore when the serving-room was some distance from the shacks. A serving-room is also being erected between the men's and traveller's shacks, in the male patients' quarters.

In addition to the above, nearly a mile of macadamized road was built throughout the grounds; and about the new infirmary the grounds have been graded and sodded and will be further beautified in a horticultural way. Four fire extinguishers, one for each floor of the hospital, have been provided.

Kingston General Hospital.

Improvements have been made to the buildings in refurnishing and fitting up the wards. Owing to the overcrowded condition of the hospital the superintendent's quarters have been taken over and equipped as a special ward. A larger hospital scheme is in contemplation and it is hoped that considerable progress will be made this year in its development.

London St. Joseph's Hospital.

An electric range has been placed in the kitchen, cost $1,500, and two electric stoves have been presented to the hospital for use in two of the serving rooms. The Kay-Scheerer sterilizers are being replaced by new ones at a cost of about $2,000.

Mattawa General Hospital.

Several halls and rooms have been tiled and the walls enamelled; and the toilets have been replaced by more modern patterns. The operating and sterilizing rooms have had the wooden shelves replaced by glass ones. A substantial iron fence on a cement foundation, now enclose the premises.

New Liskeard Lady Minto Hospital.

The influenza epidemic caused considerable outlay for extra beds and equipment, and the verandahs had to be fitted up to accommodate the increased number of patients.

Ottawa General Protestant Hospital.

A new X-ray plant has been installed costing $5,500. It has been agreed to turn over to the city all the assets of the three of the hospitals, viz., St. Luke's, the Maternity, and the General Protestant, if the city will undertake to erect an up-to-date hospital and operate the same. The city has applied to the Legislature to be allowed to raise $1,500,000 for this purpose, and the request has been granted.

Ottawa Roman Catholic Hospital.

The operating rooms and children's wards, damaged by fire, have been restored and greatly improved. The roof of the east wing has been converted into a sun garden for patients.

Oshawa General Hospital.

The new surgical wing has accommodation for 25 patients on the first and second floors; the third floor is divided into operation rooms, doctors' room, dressing room, anesthetic room and laboratory. Sun rooms connect the old and new buildings. Other improvements are high pressure sterilizers, a new operating-room table, Gatch frame beds, metal bedside tables. All of these improvements were gifts from the citizens of the town. Five hundred dollars has also been contributed to equip a diet kitchen. The Ladies' Auxiliary has raised $11,000 which enabled them to pay off the debt on the building.

Owen Sound General and Marine Hospital.

An X-ray machine and fluoroscope have been added to the equipment, costing $3,000, and a small electric laundry outfit costing about $400.

Ottawa Royal Sanatorium.

The City of Ottawa intends to increase the accommodation of this institution for thirty more patients, and application has been made to the Government of Ontario for permission to expend $100,000 for this purpose.

Ottawa Misericordia Hospital.

A large Kiosque has been built which keeps the children out of doors during the summer.

Peterborough Nicholls' Hospital.

A residence occupying large grounds has been purchased for a nurses' home. This releases a number of rooms in the main building which will now be available for patients.

Petrolea Charlotte Englehart Hospital.

A maternity annex has been built and furnished complete by Mr. J. L. Englehart.

Peterborough St. Joseph's Hospital.

Two electric elevators have been installed, one for patients and the other for food, at a cost of $2,900. The nurses' home is to be enlarged.

Parry Sound General Hospital.

The building has been completely re-wired, and the Knott, tube and conduit system installed. A stand pipe and chemical fire extinguishers have also been installed for fire protection. Improved toilet and bath facilities have been provided. A new electric washer for the laundry, and an electric cooking stove have been put in.

Parry Sound St. Joseph's Hospital.

Three bathrooms have been equipped and a large verandah built for the comfort of the patients.

Port Arthur St. Joseph's General Hospital.

Two of the boilers of the steam plant have had underfeed stokers installed, costing $4,000.

Sault Ste. Marie General Hospital.

The verandahs on the south and east side of the building have been converted into sun rooms, the western verandah has been rebuilt with brick intersections, and a new fire escape erected. The old furnace rooms have been converted into dining-rooms for nurses, maids and hired men. A Kewanee furnace has replaced the three old ones, giving more satisfactory results.

Sarnia General Hospital.

The following improvements have been made: A new roof, a new Kewanee 50 h.p. boiler, a new washing machine, motor ambulance, and temporary nurses' home, incurring a total expenditure of $10,850.00.

Sudbury St. Joseph's Hospital.

The installation of an X-ray equipment has proved very satisfactory both in fluoroscopy and radiography.

St. Catharines Consumptive Sanatorium.

The laying of some hardwood floors and repainting of the institution inside and out, is the extent of work done during the year.

Toronto—The Women's College Hospital.

The new wing consists of three stories and basement, and is planned to form part of a larger scheme. In the basement is the Out-patient's Department, consisting of waiting room and lavatory, three clinical rooms and drug-room; there is also a pathological laboratory, three large store-rooms, soiled clothes room, and a boiler and fuel room. On the first floor is the public surgical department and one large ward of eight beds, and balcony; also semi-private wards on each side, and an observation ward, lavatory and service rooms. Between the old and new buildings is the dining-room for the staff. Second floor, accommodating the public obstetrical work, consists of a large ward of eight beds with balcony; two smaller wards, accouchment room, service rooms and lavatory; a babies' ward with balcony and two new bathrooms in old part of building. In the top flat is the operating department, which has large and small operating

rooms with anesthetic room between, doctors' wash room, sterilizing room, room for preparing dressings and an X-ray room. The new section is served with a fireproof staircase and a passenger elevator. A capacity of fifty beds for adult patients and twenty-five baby cots. A new nurses' home was purchased three doors north of the hospital.

Toronto—The Hospital for Sick Children.

Alterations have been made in the boiler room and additions to the boilers provided for. A considerable addition to the X-ray department is contemplated on account of a generous donation.

Toronto Free Hospital for Consumptives.

An up-to-date steam laundry plant has been installed. An addition has been made to the nurses' residence, comprising eight single rooms with bath-room, making a total of fifty-eight single rooms together with sitting-rooms, bath-rooms, dining-room and kitchen, all separated from the institution. A surgical room has been provided in the main building. A Pathescope moving picture machine has been provided in the main building, which provides weekly entertainment.

Toronto Orthopedic Hospital.

A nurses' home has been provided outside of the building, which affords accommodation for ten more patients than formerly.

Windsor Hotel Dieu Hospital.

The operating room has been remodelled and painted, and one more operating room added, making three in all; there are also anesthetic rooms and dressing rooms, total cost, $5,000. A new X-ray apparatus has been installed, and two large rooms have been fitted up for it, at an outlay of $3,000. A clinical laboratory has been fitted up at a cost of $2,000. New fire escapes are being erected, fire-proof doors are being placed on all elevator shafts, and new fire extinguishers are in all the departments besides fire hose. A new dormitory has been fitted up for maids, costing $2,000, which required an extension of plumbing and a new main pipe connection with the furnaces for heating the fourth floor; water supply for bath-rooms, and open skylights in the roof. A men's new surgical ward is nearly completed, at a cost of about $1,500.

County Houses of Refuge.

There are now thirty-one Houses of Refuge in the Province of Ontario, with an average number of inmates during the year of 1742. During the latter part of the year I had an opportunity of visiting a few of these institutions, and in nearly every instance I found these institutions well conducted and the inmates provided with comfortable homes. As this was my first visit to these institutions, I had no knowledge of their previous conditions, and so was not in a position to compare conditions with previous years. In some instances criticisms were made and some improvements suggested. In nearly every case these suggestions were received in a kindly manner, and I believe that an honest endeavour will be made to carry out the suggestions as indicated.

In some instances I noticed that there was no ward in the building as a hospital for the sick in the institution, nor yet was there a competent nurse to

look after them. Section No. 54 of the Official Regulations states as follows: "In every such public charity there shall be provided a quiet and comfortable ward or infirmary for men and a similar ward or infirmary for women, in which inmates who may at any time be ill or infirm may be cared for, and each Refuge must have a competent nurse to care for the sick and carry out the directions of the matron." This is very important, and I think this Regulation should be carried out in every institution.

Many of the Houses of Refuge in Ontario do credit to the counties which have erected and are maintaining them, and a great interest is taken in their management by the committee in charge. In nearly every instance, the superintendent and matron are well fitted for the position they hold. So much depends upon this and upon the human interest the superintendent and matron take in the aged and infirm inmates of the institution. The inmates should never be allowed to care for themselves, but during the war on account of the great scarcity of help, in many instances this had to be done.

While we have many splendid institutions throughout the Province, I am very sorry to say that there are yet a few of the counties which have not yet established a home for their indigent poor. I would like to draw the attention of these counties to the Act respecting Houses of Refuge which says that "The Corporation of every County which has not already established and erected, shall forthwith establish and erect, and the Corporation of every County shall at all times maintain a House of Refuge for the reception of persons of the classes described in Section No. 14." It is the bounden duty of every county to establish a Refuge for its indigent poor. Now that the war is over, I hope they will take this matter into serious consideration.

The fire protection in an institution of this kind is of very great importance. Fire escapes are absolutely necessary and in an institution where the inmates are old and crippled, fire escapes should be constructed so as to afford easy access to the ground. In some instances I find the fire escapes inadequate and useless. In these instances I made certain recommendations, which I have every reason to believe will be carried out.

The result of the inspections I made during the past year, leads me to believe that an honest effort is being made to conduct the Houses of Refuge properly, and that everything is being done for the comfort and convenience of the inmates. A copy of each inspection was sent to the Honourable the Provincial Secretary and one to the Clerk of the county.

City Refuges Receiving Government Aid.

There are now thirty-nine Refuges and Homes in the Province of Ontario, receiving Government aid. The total number of inmates in these Refuges during the year was 5101. The total expenditure for the maintenance of these Refuges for the year was $587,338.06. Towards this expenditure the Government contributed $71,220.77. This grant is computed at the rate of 7 cents per day per inmate. The balance of the expenditure is made up by contributions, municipal grants, etc.

During the year I visited a number of these Institutions and was very much pleased with the way they are managed. In nearly every instance they furnish a comfortable home for the old and helpless people committed to their care. In some instances criticisms were made and improvements suggested. The majority of these Institutions are carefully managed, and the inmates given every care and

attention. However, in some instances there is a tendency to overcrowding and imperfect ventilation. During the day the inmates should not be allowed to remain in the dormitories. These should be vacant during the day and the windows opened, so that the roooms may be thoroughly aired. The building should be of fireproof construction with proper facilities for escape in case of fire.

I think it is a mistake to encourage the establishment of these Institutions in the cities and towns of the Province. The only proper location is in the country, where the inmates may have the advantage of hygienic surroundings and the opportunity of engaging in open air work. The advantages that would be experienced by removal to the country could hardly be estimated.

I find in many of these institutions the insane and feeble-minded; this is not as it should be. The insane should be placed in one of the Hospitals for the Insane where they could receive proper treatment for their particular mental condition. The feeble-minded should be removed to the Provincial Institution provided for those who are feeble-minded.

Orphanages.

There are thirty-one Orphanages in the Province of Ontario receiving Government aid. The total expenditure for the maintenance of these charities during the year was $314,092.03. The amount of Government grant received by these institutions was $17,527.57. The number of children cared for at these institutions during the year, was 4,664, which was 431 more than last year. Although this is not a very hopeful sign, I find on inquiry that in many instances this increase in the number of inmates is ascribed to the fact that many of the children of the soldiers who are giving their services to their country, had to be provided for. After the war is over and the fathers return, we hope that many of these children will be returned to their homes.

My visits of inspection to a few of these institutions throughout the Province, lead me to believe that these institutions are with very few exceptions, conducted in a commendable manner. The domestic arrangements were found, in nearly every Orphanage, to be very carefully looked after. The children looked comfortable and happy, and seemed in every instance to be well cared for.

A great deal of credit is due to those in charge of these institutions, who give their time and very often their means, in order to look after these poor and unfortunate children. It has been said that the best institution is a poor substitute for a home. This is quite true, and there is a feeling abroad that some effort should be made to secure homes for these children where they would be in touch with the humanizing influences of home life and family affection. This might be done with a certain class of children, but institutions for the care of children will never be entirely abandoned, as there will always be a class of children who will always have to be maintained in our institutions no matter how extended the placing out system, because of the natural preference of foster parents for children of the better type.

Food Production.

The Hospitals and Public Charities throughout the Province are to be congratulated upon their ready response to the call for more food production during the period of the war. Those who were fortunate enough to have a few acres of land, in many instances produced enough vegetables and fruit to supply the institutions for a year. This has been quite a help in keeping down the cost of

maintenance. The interest shown in this work by those interested augers well for the continuance of food production in our institutions, after the war is over.

Dental Service in Hospitals.

The time has arrived when every hospital throughout the Province, particularly in its larger centres, should consider the advisability of establishing a dental service in connection with the hospital. This is considered necessary by many of the medical profession if the best interests of the hospital patients are to be served. This should be established upon the same basis as the medical and surgical service. This service could be made hygienic as well as curative. The medical profession are a unit to-day in believing that many of the ills that flesh is heir to are due to defective teeth and septic conditions in the oral cavity.

It was probably never clearly realized before the number of people who had defective teeth until we began examining recruits for overseas service. Thousands of men were rejected and this became so serious that the Militia Department opened dental clinics where these conditions were remedied and men made fit for service.

Medical inspection of schools has shown that at the initial inspection over 90 per cent. of the children have defective teeth which has a deteriorating influence on their school work besides being a menace to their health.

Many people cannot afford to pay for dental treatment and the teeth are neglected until their general health is impaired. For the deserving people of this class an outdoor dental clinic should be established in connection with the service where they could have free dental treatment. It is equally important that an adequate service should be given patients in the hospital. The various details of the service would have to be worked out according to the size and requirements of the particular community, but in any case the time is ripe for a beginning.

Hospital Association.

I had the pleasure of attending the annual meeting of the American Hospital Association held at Atlantic City, September, 1918. The convention was very largely attended, about six hundred delegates being present.

All the papers and discussions were interesting and instructive, although dealing largely with war conditions in relation to our civic hospitals. One of the principal questions discussed was the problem of financing our institutions owing to the high cost of commodities and the shortage of domestic help. This has been a very serious problem in most hospitals during the war period.

A round table talk on matters affecting the smaller hospitals was very much appreciated.

These associations are very helpful to those engaged in hospital work, and I would like very much to see the Ontario Hospital Association revived, where those engaged in hospital work in this Province could get together and discuss matters which particularly affect hospitals in our own Province.

Official Regulations.

To those engaged in the management of Hospitals and Public Charities, attention is drawn to the fact that we have Official Regulations issued by the Department which are still in force, and which must be complied with. Boards of management and superintendents should make themselves familiar with these Regulations, so that they may conform to the wishes of the Department. In some cases this is not being done, and attention is drawn to this fact.

TABLE I.—Showing the general movements in each hospital separately.

Hospitals.	Location.	Capacity in beds.	Number remaining under treatment on 1st Oct., 1917.	Number admitted during the year ending 30th Sept., 1918.	Number of births in hospital during the year. Government aid for 1918	$797 02

ORPHAN ASYLUMS

The statistical tables on the following pages of this report show an increase in the contributions to several of the Institutions, while in some cases there is a falling off as compared with last year.

The total number of children cared for in the Orphanages during the year was 4,664, as compared with 4,233 in 1917.

In the tables will be found full details of the receiving and discharging of children, etc.

The statistics relating to the sex and previous residence of the inmates are given in the following summary:

Sex.

Male	2,410
Female	2,254
	4,664

Previous Residence.

Received from cities in which Orphanages are located	3 399
Received from counties in which Orphanages are located	369
Received from other counties in the Province	732
Immigrants and foreigners and unknown	164
	4.664
